Addendum to 52.212-1 paragraph (g).

(g) *Contract award (not applicable to Invitation for Bids).* The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. If discussions are held and the Contracting Officer determines that the number of proposals would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most price competitive proposals that are technically acceptable. The number set for the competitive range may first take into account price, followed by technical review of remaining offers. If two offers are closely rated and the contracting officer would otherwise include one but not the other due to efficiency, both offers should be included. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

COMPLIANCE WITH SPECIFICATIONS

In order to ensure compliance with all the specification requirements, the contractor shall indicate in its offer, and notify the Government in a cover letter, what specifications, if any, the offeror does not intend to meet. The offeror shall explain, in detail, how any proposed deviation/exception will nonetheless meet the Government's functional requirements. Should descriptive literature be supplied by the offeror, it will be presumed that the offeror intends to meet all of the specifications, regardless of the descriptive literature, unless the offeror specifically notes its exceptions.

It shall be the obligation of the contractor to exercise due diligence to discover and to bring to the attention of the Contracting Officer at the earliest possible time, in writing, any ambiguities, discrepancies, inconsistencies, or conflicts in or between the specifications and the applicable drawings or other documents incorporated by reference herein. Failure to comply with such obligation shall be deemed a waiver and release of any and all claims for extra costs or delays arising out of such ambiguities, discrepancies, inconsistencies and conflicts.

INSPECTION AND ACCEPTANCE (DESTINATION)

Inspection and acceptance of the supplies or services to be furnished hereunder shall be made at destination by the receiving activity.

52.211-8 TIME OF DELIVERY (JUNE 1997)

The Government will evaluate equally, as regards time of delivery, offers that propose delivery of each quantity within the applicable delivery period specified above. Offers that propose delivery that will not clearly fall within the applicable required delivery period specified above, will be considered nonresponsive and rejected. The Government reserves the right to award under either the required delivery schedule or the proposed delivery schedule, when an offeror offers an earlier delivery schedule than required above. If the offeror proposes no other delivery schedule, the required delivery schedule above will apply.

The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of

The Government will not consider the manifest as proof of delivery unless each package can be uniquely identified. LIMITATIONS ON THE SAMPLE TASK

SAMPLE TASK. The sample task shall consist of the technical point of contact providing a data set to the offeror for loading into the prospective system. The offeror shall produce reports and execute procedures described in the CSA Database Test Procedures document. It is acceptable for the offeror and Government contact to conduct a Question and Answer (Q&A) session prior to the start of the sample task with a follow-up question and answer session after completion of the sample task. The sole purpose of the sample task is to test an offeror's understanding of the work that the Government will require under the resulting contract.

The sample task is not part of the offeror's proposal, nor does it constitute discussions as defined by FAR 15.306 and 15.307. Completion of the sample task will not obligate the Government to determine a competitive range, conduct discussions, or solicit or entertain revised or best and final offers. Statements made by the offeror during this meeting between the Government and contractor will not become a part of any contract resulting from this RFP, unless the Government and an offeror agree to make it a part of an offer during discussions, if conducted. If the Government decides to conduct discussions, the Government will not solicit or entertain revisions to any element of the sample task.

Eligibility: Only offerors submitting acceptable offers (proposals) prior to the solicitation closing date and within the competitive range will be eligible to perform the sample task. The Government will evaluate *offers* (proposals) for acceptability on a pass or fail basis. The Government will consider an offer to be acceptable if it manifests the offeror's unconditional assent to the terms and conditions of the RFP, including the specifications. The Government will consider any offer that takes exception to any term or condition of the RFP, or that otherwise fails to manifest the offeror's unconditional assent to a term or condition, to be unacceptable, unless the RFP expressly provides that assent to the term or condition in question is not mandatory.

Schedule of the Sample Task: The order in which offerors will make perform the sample task will be determined by a drawing of lots by the Contracting Officer after receipt of the offer and written information. The Contracting Officer will notify offerors of the scheduled date and time of their sample task within one week of the solicitation closing date. Once notified of their scheduled date and time, offerors shall be prepared to perform the sample task on the date and time assigned. Offeror requests to reschedule will not be entertained.

Offeror Employee Participation: A maximum of five (5) contractor personnel shall attend and perform the sample task, either on-site or via teleconferencing. The personnel performing the sample task should be the actual personnel who would be responsible for contract management and/or performance in the event the proposal results in award.

Limitation of time allowed for the sample task: The anticipated timeframe to complete the sample task is 2-4 hours. There may be a brief question and answer (Q&A) and instruction period prior to commencement of the sample task. Following completion of the sample task, there may be a second Q&A session, which may include questions regarding the performance of the sample task. The contractor will be required to answer all of the questions posed by the Government during the Q&A sessions.

Neither the introductions of personnel nor the Government-scheduled breaks will count against the presentation time.

NO price or cost information shall be included in the presentation narrative or supporting slides/ screens.

INSTRUCTIONS FOR THE SAMPLE TASK

The sample task will consist of demonstrating (1) systems capabilities, (2) ability to input and modify data, and (3) generation of reports from the CSA Database Test Procedure, provided as Attachment 1 to this solicitation. During the demonstration of the sample task, the offeror must perform the elements identified in the test procedure. This task represents the type of work to be accomplished under the resulting contract.

requested on the Contract Data Sheets will not be considered. **Failure to submit Contract Data Sheets shall be considered certification that the contractor has no past performance for like or similar items for the Government to evaluate.**

b) Number of Contracts - Complete a Contract Data Sheet for up to five of your most recently completed Federal Government contracts (not to exceed three years since completion) for like or similar items under this solicitation. If you do not have any Federal Government contracts, then list state, local, or commercial contracts, in that order, to complete your Contract Data Sheets.

52.212-2 EVALUATION-COMMERCIAL ITEMS (JAN 1999)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

1) Technical Acceptability:

(a) In order to be determined technically acceptable, offers must meet or exceed the specifications in the solicitation and any subsequent amendments. (see Proposal Submittal Requirements) **The offer must be determined to be technically acceptable before further consideration.**

(b) Sample Task: To establish technical ability, the Government will evaluate sample tasks for quality, feasibility and extent of the offeror's ability to perform the Configuration Management System Requirements based on the plausibility of the company's approach to accomplishing the requirement, the viability and realism of the task, the identification of possible contingencies impacting performance and on the other information presented as necessary for task performance.

2) Price - Evaluation of price will include the following factors:

- (X) Evaluation of Options per FAR 52.217-9.
- (X) Buy American Act and Balance of Payments Program evaluation per DFARS 252.225-7021

3) Past Performance - Evaluation of past performance information (see Proposal Submittal Requirements) will include, but not be limited to, relevance and extent of previous contracts, quality and conformance of product/services to specifications, timely delivery and customer satisfaction. Information utilized will be obtained from contractor references as well as any other sources which may have relevant information. Contractor references that cannot be contacted will not be considered. An offer with no relevant past performance history may not represent the most advantageous proposal to the Government.

4) Delivery: Offerors must meet the required delivery date.

All factors, when combined, are *slightly more important than*, price.

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
